SELECT THE MOST COST-EFFECTIVE BILLING

SUCOE
Single Complex Service
for the Organization of Congresses and Events

SUCOE (Single Complex Service for the Organization of Congresses and Events) is an initiative that promotes commerce in Spain, allowing agencies to organize events and deduct VAT jointly in a single invoice. This simplifies billing and offers significant tax advantages.

Advantages of using SUCOE

- VAT-free events
Allows producing events with a single invoice that includes all services, deducting input VAT.
- Total VAT savings
Average savings of 15% and up to 21% depending on the service.
- International competitiveness
Facilitates competition with foreign agencies.

Requirements for VAT-free invoicing

For an event to be VAT-exempt, it must be organized by a Spanish agency with a local presence and include accommodation and meeting space components. Additionally, it must comply with all tax conditions and obligations.

Applications of SUCOE

SUCOE is applicable to corporate events such as business meetings, technical conferences, congresses, seminars, conventions, product presentations, and trade fairs. It includes all necessary services for the event production, from location to decoration.
